Provider Type

- Provider type indicates what “kind” of billable services the provider is contracted to do.
- Provider types include **individuals, facilities, and agencies**.
- **CIS Provider Types:**
  - PT A3 Community Service Agency
  - PT 77 Mental Health Rehab Option (MRO)
    - CCS providers
  - PT 02 Hospital
- A different Medicaid ID # is assigned to your agency for service/provider type you are enrolled to provide.
- HOKU Application step # 4
National Provider Identifier (NPI) Number and NPI Taxonomy Codes for CIS

NPI Number

- FAO providers require an NPI Number
- To apply for or edit an NPI, go to the NPPES link: https://nppes.cms.hhs.gov/#/
- The NPI is a unique 10-digit identification number for covered health care providers.
- A different NPI number is required for each provider type/provider ID # you apply for
- NPI is used by QI Health Plans for billing

Recommended CIS NPI Taxonomy Codes:

<table>
<thead>
<tr>
<th>Primary</th>
<th>251S00000X</th>
<th>Community/Behavioral Health</th>
</tr>
</thead>
<tbody>
<tr>
<td>Secondary</td>
<td>251B00000X</td>
<td>Case Management</td>
</tr>
</tbody>
</table>

A taxonomy code is a unique 10-character code that designates your classification and specialization. You will use this code when applying for a National Provider Identifier, commonly referred to as an NPI.
A Medicaid Provider Number is a unique 6-digit identifier issued by the Medicaid program for each type of service your agency provides.

Your Hawaii Medicaid Provider ID #s are only good in the state of Hawaii.
