	U.S. Interagency Council on Homelessness	Utah State Homeless Coordinating Committee	Texas Interagency Council for the Homeless (TICH)	Minnesota Interagency Council on Homelessness (MICH)	Massachusetts Interagency Council on Housing and Homelessness (MICHH)	Hawaii Interagency Council on Homelessness
Other Notes:	The USICH includes non-federal partners through committee work.	The committee coordinates with 12 Local Homeless Coordinating Committees, which represent the various counties. The committee oversees two special funds through an allocation committee that directs disbursements.	Members must submit a report by 12/31 each year to the TICH on agency outcomes related to homelessness. Each agency shall contribute to the TICH resources, which may include financial resources.	The MICH is part of a broader coalition, Heading Home Minnesota. Heading Home includes a private sector (e.g. funders and business sector) and public sector coalition, each led by a separate director. Heading Home also works together with a statewide coordinators council, which brings together leaders for all state, county, and regional plans to end homelessness.	The MICHH established a formal Advisory Board to regularly engage stakeholders outside of MICHH membership. The Advisory Board meets quarterly with the MICHH Executive Director.	The HICH was originally established through Executive Order and then established in statute in 2012.
