and times
we can
meet you**

**Contact
information
if available**

streetmedicine@hopeserviceshawaii.org
(808) 217-6502 (call/text)

This card was printed March 2020. If you have questions about program updates, call HOPE's main line at 808-935-3050 or ask an outreach worker.

COVID-19 (CORONAVIRUS)

LIVING IN A CAMP: WHAT YOU NEED TO KNOW

- COVID is a coughing illness. Coughing is the main symptom-how the virus spreads.
- If you or your campmates have a new coughing illness, wear a mask, wash or sanitize your hands as much as possible, and stay away from people if you can.
- If you are coughing and have shortness of breath, go to the hospital (Call 911).
- Only go to the clinic or ER if you're really sick. They probably won't test you unless you have severe symptoms.
- If your campmate is short of breath but won't go to the hospital, keep the pressure on. Until then, have them wear a mask and stay at least 6 feet away from others.
- Kūpuna and those with heart or lung disease are at high risk. Keep an eye on your neighbor.

COVID-19 (CORONAVIRUS)

LIVING IN A CAMP

THINGS YOU SHOULD HAVE

- Hand sanitizer or soap and water; both are equally effective
- Masks. A bandana will do in a pinch but must be clean and used for this purpose only.
- Tylenol or Advil (Acetaminophen or ibuprofen)
- Water
- Electrolyte powder, like EmergenC
- Space: 6 feet from others
