Ms. Lili Young, Deputy Attorney General

**I. Call to Order, Taking of the Roll, Determination of Quorum [00:19:30]**

Chair Jun Yang called the meeting of the Hawaii Interagency Council on Homelessness to order at 10:06 am and began by quickly introducing himself and taking roll for quorum.

The Chair confirmed that a quorum was established with 18 out of 27 members present at that time. The Chair then reviewed several general housekeeping items and noted the presence of Deputy Attorney General Lili Young to provide counsel.

**II. Overview and Approval of December 16, 2025, Agenda (Vote) [00:25:40]**

The Chair presented the agenda and asked members to briefly review it. The chair then asked for a motion to approve the agenda. Member Portner moved, seconded by Member Rezentos. The chair allowed for public testimonies and found none. The Chair called the question and the motion passed with none abstaining, no nay votes, or further discussion. The agenda was approved unanimously.

**III. Approval of Minutes from Regular Meeting on September 16, 2025 (Vote) [00:27:23]**

The Chair gave the council a few minutes to review the drafted minutes of the previous HICH meeting held on September 16, 2025. No corrections were raised.

The Chair then requested a motion to approve the minutes as is for the September 16, 2025 meeting. Member Kaumeheiwa moved and Member Koyanagi seconded. The chair allowed for public testimonies and found none. The Chair called the question and the motion passed with Member Koyanagi abstaining, no nay votes, or further discussion. The minutes was approved as is.

The chair announced the arrival of Member Naomi Crozier at 00:29:36 making the total present member count to 19 members.

**IV. Public Testimony [00:30:00]**

The Chair opened up the floor to public testimony on any items on the agenda. No members of the public testified.

**V. New Business [00:30:32]**

**a. Time limitation for oral testimonies (Vote).**

The chair explained the need to have a vote on adopting time limits for oral testimonies. He then opened up the floor for discussion.

Members Thielen, Rezentos, Brackeen, Portner, and Crozier inquired about the reasons for adopting rules on oral testimonies, offered discussions on their suggestions and experiences

with setting time limits on oral testimonies, and asked other clarifying questions. Deputy Attorney General Lili Young as well as SOHHS Staff Sam Kim helped the chair address members' questions.

The Chair opened up the floor to public testimony on this item. No members of the public testified. The Chair then requested a motion to adopt rules on oral testimonies by allowing the chair to enforce a 2-minute limit on oral testimonies as the chair deems it necessary. Member Crozier moved and Member King seconded. The chair allowed for public testimonies and found none. The Chair called the question, and the rule was adopted by the council with none abstaining, no nay votes, or further discussion.

Members Roversi and Park left at 10:25 am and 10:27 am respectively, which brought the total members present down to 17 members (quorum is still met).

## **VI. Continuing Business [00:46:25]**

### **a. Review of member's reports on their agency's current efforts in addressing homelessness as it pertains to one or more focus areas of the 10-Year Strategic Plan**

The Chair opened up the floor to public testimony on this item. No members of the public testified. The chair gave a quick overview of the 10 Year plan and explained the purpose of the reports. The chair emphasized the importance of receiving reports from all of the members in being able to get a more comprehensive view of the state's efforts to address homelessness and identify the gaps that must be filled. The following member's departments submitted a report and presented:

- Department of Health (DOH)
- Department of Labor and Industrial Relations (DLIR)
- Department of Business, Economic Development, and Tourism (DBEDT)
- Department of Hawaiian Home Lands (DHHL)
- Department of Defense (DOD)
- Department of the Attorney General (AG)
- Department of Education (DOE)
- City and County of Honolulu
- County of Kauai
- Homeless Programs Office (HPO)
- Continuum of Care of Oahu

The county of Maui did not submit a report but gave an oral presentation on Maui County's homelessness efforts. The county of Hawaii did submit a report but was unable to present that day. The Chair opened up the floor for further discussions, questions, and public testimonies and found none. He asked that members who did not yet submit a report would do so to get a more comprehensive view of the state's efforts to address homelessness and identify the gaps that must be filled.

Member Thielen left the meeting and rejoined virtually at 10:50 am.

**VII. General Announcements [01:44:31]**

The Chair opened up the floor for members to share any general announcements. There were no general announcements found.

**VIII. Topics for Upcoming Meetings [1:44:40]**

The Chair expressed his desire to have each of the Counties and Continuum of Care to give a presentation on their current efforts and initiatives in addressing homelessness in their communities. The Chair asked Member Crozier to present at the next regular meeting on Maui County's efforts and initiatives addressing homelessness who agreed to do so.

Member Rezendes suggested a topic for the next regular meeting to be on updates to federal funding for local homelessness programs and initiatives. The Chair concurred and expressed his desire to add it to the tentatively scheduled regular meeting on March 10, 2026.

The Chair opened up the floor to public testimony on items VII and VIII. No members of the public testified.

**IX. Meeting Schedule [1:50:54]**

The chair announced the tentative date for the next HICH regular meeting to be on March 10, 2026, from 10:00 am to 12:00 pm in the same Airport Conference Room 3. There were no other discussion or questions.

**X. Adjourn [01:51:12]**

The Chair entertained a motion to adjourn. Member Rezendes moved, and Member Portner seconded. The Chair called the question and the motion passed with none abstaining, no nay votes, or further discussion. The meeting was adjourned at 11:38 am.

# Hawaii Ten-Year Strategic Plan and Framework to End Homelessness (2022-2032)

The plan and framework utilize an active implementation framework and work is divided into four general stages for implementation as outlined in the graphic below:

In addition, the plan targets three specific areas of focus that drive implementation of the strategic plan -- **Competencies, Organization, and Leadership** -- with a **Housing Focused Approach** on ending homelessness, as well as investment in **Targeted Diversion and Prevention** to close the front door to homelessness. Action steps related to each area of focus will reinforce the development of each driver through policy and practice feedback loops, as well as ongoing assessment and continuous review of feedback received from all stakeholders. The relationship between the three focus areas and the process to inform system change is illustrated below:

**System Vision:** The ten-year plan advances the vision of ending homelessness in Hawaii by implementing and sustaining a housing-focused system that draws upon the efforts of multiple partners and creates a clear pathway to stable housing for individuals and families experiencing homelessness. The plan and vision recognize that the work to end homelessness cannot be addressed by any one government entity or provider alone and requires a shared community effort and ‘all hands on deck’ approach.

**Population Specific Goals:** While the overall vision is to create a system that results in pathways to stable housing for all, the plan acknowledges the importance of setting goals for specific populations of individuals and families experiencing homelessness:

- Ending homelessness among Veterans.
- Ending chronic homelessness among people with a disabling condition.
- Ending homelessness among families with minor children.
- Ending homelessness among unaccompanied youth.

**Measuring Progress:** Building a system that effectively ends homelessness does not mean that no one in Hawaii will experience homelessness, or that no one will lose their housing due to eviction or other factors. The plan accepts that life is uncertain and a variety of factors – including the economy, natural disasters, unexpected emergency situations, or unsafe and unsupportive environments – may result in individuals and families experiencing homelessness or finding themselves at imminent risk.

To measure progress, the plan focuses on indicators that the system is functioning effectively and where homelessness is a *rare, brief, and non-recurring* experience. In addition, the plan focuses on increasing **housing inventory**. Specifically, the following measures will be used to monitor ongoing progress:

- Reduction in the number of people who become homeless for the first time.
- Reduction in the total number of people experiencing homelessness.
- Reduction in the length of stay in homeless programs.
- Reduction in the number of people returning to homelessness.
- Increase in the number of permanent housing beds for persons experiencing homelessness.

These performance measures will be monitored primarily through data administered by the Continua of Care (CoCs) in the Homelessness Management Information System (HMIS), as well as a review of System Performance Measures submitted to the U.S. Department of Housing and Urban Development (HUD) on an annual basis. In addition, data from the annual Point-in-Time (PIT) counts conducted by the CoCs will be examined, as well as other data sets – including McKinney-Vento Act data from the Department of Education’s Education for Homeless Children and Youth (EHCY) program – to determine trends related to the number of people experiencing homelessness statewide.

In addition, the annual Housing Inventory Count (HIC) and levels of federal, state, and local funding for homelessness programs will be regularly reviewed to assess the system’s overall capacity to meet the above population specific goals.

Just as no one agency or entity can address homelessness, it is critical to stress that no one data set exclusively be used to evaluate progress and that a variety of data sets be regularly reviewed.

**The Plan: Implementation Drivers with Specific Objectives and Strategies.**

The draft plan builds from lessons learned from implementation of the [2012 Ten-Year Strategic Plan](#), as well as initial findings from evaluation of the Ohana Zones pilot program. The focus of the plan is to strengthen Hawaii’s system to address homelessness by focusing on implementation drivers to accelerate change and the development of a robust housing-focused system. In addition, the plan emphasizes prevention and diversion strategies to minimize the number of new individuals entering the homeless system, as well as housing-focused strategies, including housing development and scaling of permanent supportive housing and rapid rehousing programs.

By focusing on drivers that expand system capacity, the plan will result in improved outcomes for individuals directly experiencing homelessness, including increased rates of housing placement and reductions in the length of time spent in shelters and other homeless programs. What follows is a more detailed description of each goal and specific objectives and strategies related to each driver.

- **Focus Area: Building System Capacity and Strengthening Core Competencies.**  
To function effectively, the system to end homelessness will require a knowledgeable and qualified workforce capable of innovation, as well as the ability to adapt and course correct as needed.

COMPETENCIES	No.	Strategy
	1	Build a shared understanding of the process for clients receiving services related to homelessness, health, and economic security, including development of a client process map reviewed with all stakeholders (e.g., Department of Human Services, Department of Health, the counties, and the Continua of Care).
	2	Create competency-based practitioner profiles for workers across the components of the process and use practitioner competencies to develop a comprehensive professional development toolkit to support all Competency Drivers, including issues related to racial equity and cultural competency.
	3	Expand ‘Peer Specialist’ opportunities currently included in homeless service and other related contracts to actively engage people with lived experience of homelessness to enter the workforce as outreach and shelter workers and other service roles.
	4	Build alignment among stakeholders with collaborative problem-solving at both the system and provider level. (EX: Homeless Funders Group, Homeless Coordinators Meeting, Outreach-Shelter Providers Meetings, etc.).

- Focus Area: Strengthening System Leadership and Stakeholder Alignment.**  
 The actions and behaviors of leaders influences the effectiveness of the system. In addition, leadership among system stakeholders must be aligned for the overall system to function effectively.

LEADERSHIP	No.	Strategy
	1	Establish a common understanding and language for the roles and responsibilities of all stakeholders across the homeless service system to reduce duplication of efforts and clarify domains of responsibility.
	2	Offer voluntary ho`oponopono and/or mediation services to all of those impacted by system change to resolve interpersonal conflicts and establish more positive ways to work together.
	3	Build capacity for interjurisdictional collaborative problem solving across all leadership structures in the system (e.g., Hawaii Interagency Council on Homelessness, Continua of Care, etc.).
	4	Promote a balance of power and horizontal and vertical alignment in governance. Reflect on inclusion, roles, and balance in leadership structures like the Hawaii Interagency Council on Homelessness, Continua of Care, federal, state, and local governments.
5	Create a competency-based profile for leaders to develop leadership capacity with a common approach to generate further alignment among leaders.	

- Focus Area: Invest in Organizational Supports and Infrastructure.**  
 The organizational structure of the system is critical, including the system’s ability to collect and manage data, to review systems performance, and to provide effective oversight for financial resources. In addition, an effective infrastructure should support partnership between system stakeholders, including providing opportunities to partner with individuals with lived experience of homelessness, faith-based providers, and the private business sector.

ORGANIZATIONAL	1	Develop a statewide Data Warehouse to integrate client data across multiple state systems.
	2	Develop Information Technology solutions within both Coordinated Entry Systems to access real-time inventories for: shelter, housing units, and housing vouchers.
	3	Align methodology for PIT count between the two Continua of Care.
	4	Expand and aggregate statewide data collection: budget and services and map the data.
	5	Refine service contracts across jurisdictions, including alignment of performance metrics for contracts.
	6	Develop and implement a comprehensive plan of education and communication for the general public and organizations, such as Neighborhood Boards, to facilitate community understanding and engagement on homelessness.

	7	Explore funding mechanisms to address ongoing maintenance and upkeep of shelter and housing facilities, as well as the implementation of non-congregate facilities that address client privacy concerns.
	8	Explore ways to engage the business community as partners in ending homelessness and turn complaints into contributions.
	9	Raise awareness and further explore how to scale and coordinate efforts of the faith-based community, including service provision and housing development.
	10	Leverage evidence of improvement to develop a comprehensive and proactive communications plan to raise awareness about accomplishments and shift to a more positive key message: the solution is in progress.
	11	Ensure client right to due process, including Fair Hearing process and clear grievance procedures, for individuals and families receiving homeless services.
	12	Continue to build alignment among stakeholders with collaborative problem-solving.

- **Focus Area: Sustaining and Scaling Housing-Focused Approaches.**

The solution to homelessness is housing. An effective homelessness response system should include strategies to support the development of low-income affordable housing, as well as services that support rapid connection to housing and provide support for stable transitions to housing.

<b>HOUSING-FOCUSED APPROACHES</b>	1	Continue to develop low-income and affordable housing by reinvigorating and expanding the State Affordable Rental Housing Plan to embrace people at all income levels, including individuals at the low- and very-low income levels.
	2	Increase Permanent Supportive Housing financing strategies, including strategies to scale site-based permanent supportive housing for individuals experiencing homelessness and high-acuity individuals in other systems of care (e.g., Behavioral health or criminal justice systems, etc.).
	3	Support additional rental housing subsidies through federal, state local and private resources.
	4	Expand the supply of affordable rental housing where units are most needed through federal, state, local and private efforts, and partnerships.
	5	Improve access to and use of supportive housing by encouraging participation in the Coordinated Entry System, including prioritization and matching people with appropriate levels of support.
	6	Review government policies and practices in government funded affordable housing, including subsidized public housing, which impact eligibility and eviction.
	7	Conduct a system-wide inventory of available land and properties that may be repurposed for housing or for the use of housing-focused programs.

	8	Explore strategies to incentivize the acquisition or repurposing of facilities for housing, including housing specifically targeted for individuals transitioning from homelessness.
	9	Explore strategies to incentivize landlords, property managers, and realtors to provide rental housing for individuals transitioning out of homelessness, including scaling of systems-level landlord engagement programs.
	10	Explore strategies to strengthen community and interpersonal connection through the use of communal design and shared gathering spaces.

- Focus Area: Diversion and Prevention to Address Households at Imminent Risk of Homelessness and connections to treatment for the most vulnerable.**

As quickly as providers transition homeless individuals and families into housing, many more individuals fall into homelessness for the first time due to economic hardship or a one-time crisis. In addition, some homeless individuals experience severe mental illness, substance use disorders, or chronic physical health conditions that require support outside of the homelessness system. Dedicated homelessness prevention and diversion strategies are needed to stabilize housing for those at risk of homelessness and to rapidly identify housing options for individuals without a previous history of homelessness. In addition, diversion strategies can connect individuals with higher levels of acuity to other resources that can stabilize their situation and provide appropriate levels of care.

<b>DIVERSION &amp; PREVENTION</b>	1	Scale eviction prevention strategies, including targeted short-term rental assistance, mediation services, and civil legal services for landlord-tenant issues.
	2	Introduce and advocate for policies that provide increased protections for renters, including policies examining discrimination based on source of income, gender, and ethnicity.
	3	Develop new opportunities for individual enterprise for people 0-30% AMI through partnerships with artisan collectives, private industry, construction unions, and hospitality industry.
	4	Scale Assisted Community Treatment and other behavioral health street intervention models and build capacity to serve chronically homeless people with severe mental illness or acute substance use disorders.
	5	Increase capacity for in-patient mental health and substance abuse treatment and expand options for specialized transitional housing.
	6	Utilize mainstream resources to provide housing stabilization assistance.
	7	Expand housing navigation programs that assist individuals being displaced to secure new housing, including partnerships with entities such as the Department of Education Community Concerns liaisons and health plan Housing Coordinators.

HICH Ten-Year Strategic Plan and Framework  
(Adopted May 16, 2022)

	<b>8</b>	Review and develop strategies which assist homeless non-residents in accessing the most appropriate resources.
	<b>9</b>	Improve coordination and integration of employment programs and homeless assistance programs.
	<b>10</b>	Seek opportunities to scale medical respite programs (transition programs for the medically fragile) to accommodate people being discharged from hospitals experiencing homelessness with complex health needs.
	<b>11</b>	Increase availability of and accessibility to health services for special populations (e.g., co-occurring disorders including mental illness, substance abuse, developmental disability, and medical frailty).
	<b>12</b>	Create specialized service packages for community re-entry for populations such as families, veterans, disabled, youth aging out of systems, mentally ill offenders, and sex offenders so the individual does not revert to harmful behaviors, especially after successful discharge from substance abuse treatment.
	<b>13</b>	Improve discharge planning from medical centers, emergency departments, psychiatric facilities, jails, and prisons to connect people to housing, health and behavioral health support, income and work support, and health coverage prior to discharge.
	<b>14</b>	Increase the number of jail diversion programs that are linked to housing and support.

**A Living Document.**

The plan is intended to be a living document that will be reviewed quarterly by the Hawaii Interagency Council on Homelessness and revised based on input from the council and other community stakeholders.

If you have any questions, or suggestions for revisions, please contact the HICH Chair, Scott Morishige, at (808) 586-0193 or [gov.homelessness@hawaii.gov](mailto:gov.homelessness@hawaii.gov).
